PROFESSIONAL SUMMARY

MSc Global Management candidate (expected Dec 2028) with a background in International Tourism Management and experience at an international tourism company, a leading commercial bank, and a global FMCG company. Mandarin/English bilingual, Cantonese improving. Targeting roles in marketing, operations, and international management across consumer-facing industries.

EDUCATION

The University of Hong Kong — **Hong Kong, China**
Master of Global Management — Sep. 2026 - Dec 2028

Macao University of Science and Technology — **Macao, China**
Bachelor of International Tourism Management — Sep. 2022 - Jun. 2026

- **Overall Average Score:** 3.75/4.0
- **Certifications:** Dean's Honours List 2024 & 2025, Fok Ying Tung Education Foundation Scholarship

WORK EXPERIENCE

China Great Wall Securities Co., Ltd. — **Shanghai, China**
Intern, Industrial Research Department — Jul. 2026 - Aug. 2026

- Conducted in-depth research on Zoomlion Heavy Industry and contributed to a 40-page deep-dive report, analyzing 5 years of financial data, industry concentration, product mix, overseas expansion; conducted quantitative benchmarking against three leading Chinese industry peers to assess competitive positioning and growth prospects.
- Maintained and updated proprietary industry databases, systematically tracking financial, operating, and market data of 10+ engineering machinery companies across China, Japan, and the U.S.

UTour Group Co., Ltd. — **Beijing, China**
Intern, Securities Affairs Department — Jan. 2026 - May. 2026

- Assisted in drafting and refining the 2025 Annual Report, specifically the Management Discussion and Analysis (MD&A) and Corporate Social Responsibility (CSR) sections, ensuring strict adherence to regulatory disclosure standards.
- Analyzed 100,000+ travel monthly orders from Jan–May 2026 using advanced Excel Pivot Tables to identify booking trends; prepared monthly order analysis reports for management and ultimately developed a standardized SOP for data processing and reporting.
- Engineered a Python pipeline (Pandas, NumPy, Openpyxl) leveraging ChatGPT to automate the "raw data to analytical report" workflow, cutting data analysis time from several business days to minutes.

COFCO Coca-Cola Beverage (Beijing) Co., Ltd. — **Beijing, China**
Intern, Marketing Department — Jun. 2025 - Jul. 2025

- Conducted market intelligence research on digital marketing trends in the FMCG and beverage sector, synthesising reports from Gartner, IDC, and Nielsen to assess the adoption of AI-powered consumer analytics and its impact on brand engagement.
- Led end-to-end production of a B2B promotional video, from scriptwriting and on-site coordination to post-production editing; the final deliverable was published and used in an internal company competition.
- Supported a cross-functional project with IBM Kenexa on talent assessment analytics, leveraging AI tools to evaluate behavioral and competency data of 300+ employees — applying data-driven segmentation and profiling techniques transferable to consumer audience analysis.

Bank of China, Qingdao Branch **Qingdao, China**
Intern, Human Resources Department Jul. 2024 - Aug. 2024

- Supported branch recruitment and onboarding by screening 200+ resumes, shortlisting qualified candidates, assisting with employment documentation and onboarding procedures, and facilitating employee labour contract signing.
- Reviewed and verified Critical Illness Support Fund applications for 300+ employees.
- Independently systematised and standardized company-wide payroll data, organizing and adjusting salary records for all employees.

PROJECTS

Hong Kong Tourism, Major Events & Hotel Performance Analysis
Sep. 2026 - Sep. 2026

- Developed an end-to-end tourism data analysis workflow covering data collection, cleaning, integration, and statistical analysis, integrating visitor arrivals, major events, weather conditions, hotel occupancy rates, and average room rates to examine how tourist demand and major events are associated with hotel performance in Hong Kong.
- Built an AI-agent workflow with Github Copilot and Firecrawl to to automate the scraping of event and weather information from government and public websites, standardizing data from multiple sources into a monthly dataset.
- Conducted descriptive statistics, Pearson correlation analysis, and multiple linear regression, using hotel occupancy rate and average room rate as dependent variables to examine the associations of visitor demand and major events with hotel performance while controlling for seasonality.

Tourism Promotional Video Effectiveness & Content Experiment
Sep. 2025 - Dec. 2025

- Independently produced and edited virtual and real-world versions of a Hong Kong tourism promotional video, maintaining consistent themes and visual styles, and designed a survey to compare their effects on audience immersion, advertising effectiveness, and travel intentions.
- Conducted an A/B controlled experiment with 258 valid responses, equally divided between the real-world and virtual video groups (129 respondents per group), to quantitatively assess the effects of different video formats on destination perceptions and visit intentions.
- Used SPSS to conduct independent-samples t-tests and ANOVA, finding significantly higher ratings across four dimensions for the real-world video group, and further examined demographic differences to provide data-driven insights for tourism promotional content selection.

Social Media Marketing & Travel Destination Choice Analysis
Nov. 2024 - Dec. 2024

- Led a quantitative research project examining how social media marketing influences university students' travel destination choices, designing a 5-point Likert-scale questionnaire and collecting 276 valid responses.
- Constructed a 5-dimensional research framework covering Information Quality, Platform Characteristics, Marketing Strategy, Destination Reputation, and Affordability Perception to evaluate factors influencing travel decisions.
- Conducted independent-samples t-tests and ANOVA in Excel, supplemented by chi-square analysis, identifying significant differences in perceptions of marketing approaches between undergraduate and postgraduate students and deriving implications for tourism destination marketing.

SKILLS AND LANGUAGES

- **AI & Data Analysis:** AI Agent Workflows, Python (AI-assisted programming), SPSS
- **Financial & Industry Databases:** iFinD, Wind
- **Design & Video Editing:** Photoshop, Jianying(CapCut)
- **Productivity Tools:** Excel (PivotTables, Regression), Word, PowerPoint, Keynote
- **Language Skills:** Mandarin (Native), English (Professional, IELTS 7.0), Cantonese (basic, in active study)
